WORK EXPERIENCE

Seattle Consulting Myanmar Co., Ltd

Dec 2020 – Jun 2022

Full-Stack Software Engineer (Angular + Java) | E-Commerce

Onsite

- Contributed to the design and development of core e-commerce modules such as product catalog, shopping cart, order management, and payment processing using Java, Spring Boot, Hibernate, and PostgreSQL.
- Built and maintained scalable microservices architecture, ensuring high availability and performance for millions of users and thousands of daily transactions.
- Developed frontend features with Angular, enhancing customer experience and integrating seamlessly with backend APIs.
- Implemented real-time messaging and event-driven architecture using Kafka Streams for order tracking, notifications, and inventory synchronization.
- Optimized SQL queries and database schema design to improve system responsiveness and reduce latency under high load.
- Deployed and managed applications in Docker/Kubernetes environments, ensuring reliability and smooth rollouts via CI/CD pipelines (Jenkins, GitLab).
- Integrated monitoring and logging tools to improve system observability, troubleshooting, and performance optimization.
- Collaborated with cross-functional teams in an Agile/Scrum environment, driving sprint deliverables and improving time-to-market.

NTT DATA Myanmar Co., Ltd

Jun 2022 – Jun 2025

Backend Engineer (Java) | Logistics

Onsite

- Designed and developed scalable backend applications using Java, Spring Boot, Hibernate, and open-source frameworks, powering mission-critical logistics and e-commerce platforms.
- Built and optimized RESTful APIs and microservices architectures to ensure high availability, resilience, and performance for thousands of concurrent users.
- Implemented automated testing strategies (unit, integration, and acceptance tests), improving system reliability, reducing defects, and supporting CI/CD pipelines with Jenkins and GitHub Actions.
- Collaborated closely with cross-functional teams (product managers, frontend engineers, UX designers) in Agile/Scrum environments, ensuring alignment between product vision and technical execution.
- Deployed and maintained applications in AWS (EKS, EC2, RDS, S3) with Kubernetes and Docker, enhancing system scalability and operational efficiency.
- Applied SQL optimization in PostgreSQL and MySQL to improve query performance and support large-scale transaction processing.
- Mentored junior engineers, promoting clean code practices, DevOps adoption, and test-driven development while fostering a culture of continuous improvement and collaboration.
- Contributed innovative ideas and implemented event-driven architectures with Kafka, supporting real-time features such as notifications, order tracking, and live analytics.
- Actively researched and integrated emerging programming trends and AI-powered development tools to improve productivity and accelerate delivery cycles.

EDUCATION & CERTIFICATE

University of Computer Studies (Mandalay)
Bachelor of Computer Science (B.C.Sc.)
Google Cloud Digital Leader Certificate (GCDL)

Graduated: May 27, 2020
Issued Date: May 27, 2025

PROJECTS

Myanmar Automated Cargo Clearance System (MACCS)

Backend Engineer (Java) | NTT DATA Myanmar

- Developed cargo clearance and customs automation modules using Java Spring Boot.
- Built scalable microservices with PostgreSQL and Kafka for real-time logistics workflows.
- Implemented CI/CD pipelines, Docker, and Kubernetes to ensure high availability and reliability.

Shop.com.mm – Myanmar’s Leading E-Commerce Platform

Full-Stack Software Engineer (Angular + Java) | Seattle Consulting Myanmar

- Built and maintained core e-commerce features (catalog, cart, payment, order tracking) using Java Spring Boot, Angular, and PostgreSQL.
- Developed scalable microservices and real-time event-driven features with Kafka.
- Improved system reliability with CI/CD pipelines, Docker/Kubernetes, and SQL optimization.

SOFT SKILLS

- ✓ Good Communication
 - ✓ Teamwork
 - ✓ Problem-solving
 - ✓ Time management
- ✓ Fluent in English
 - ✓ Leadership
 - ✓ Critical thinking
 - ✓ Adaptability

TECHNICAL SKILLS

Backend Dev	Frontend Dev	Database	Cloud	Version Control	CI/CD
Java 8 – 21, J2EE Spring Boot, JPA Hibernate, JDBC Microservice Concurrency, JSP Servlet, REST API JUnit, Spring Security	React.js Angular.js JavaScript HTML, CSS Bootstrap Tailwind CSS	PostgreSQL MySQL MongoDB	GCP: App Engine Compute Engine Cloud Run, GKE Cloud Build AWS: EC2, ECS EKS, S3, RDS	Git GitHub SVN	Jenkins, Docker GitHub Actions Maven, Gradle Kubernetes

AWARDS

NTT DATA Myanmar Co., Ltd

- Collaboration Team Award (Mar 21, 2025)
- Support Team Award (Mar 15, 2024)

DESIRED SALARY :

Negotiable
